BGA AIRWORTHINESS QUALITY MANAGER

The BGA is seeking to recruit a part-time airworthiness Quality Manager to replace our current quality manager who is moving on after a highly successful period of service. The fundamental aim of the role is to continue to deliver proactive oversight of BGA airworthiness quality management compliant with Part M.

This flexible part-time Quality Manager position includes elements of managing a small quality team, site visits and liaison as well as some administration. The successful applicant will be a knowledgeable and effective communicator who understands both Part M and the needs of glider owners, inspectors, the BGA and the CAA. The position will require formal CAA approval following recommendation by the BGA. Access to own transport and availability to travel throughout the UK as required to achieve the task are essential. Previous experience in aviation quality assurance as well as aircraft maintenance, including gliders, is highly desirable.

Applicants for this very interesting and rewarding part-time role should supply a relevant CV and covering letter including remuneration expectations.

Please supply the information in confidence to Pete Stratten pete@gliding.co.uk .

Closing date 7th November 2011
