

BGA Regional Safety Officers - Allocation of Clubs

The BGA has appointed a team of volunteer Regional Safety Officers (RSO's) whose function is to assist clubs in their regions. They are there to help clubs with safety policies and issues; review club safety check lists (see link to review list web page); and to conduct club visits to assist in identifying areas and practices which might be improved. They will also advise, if requested, on how to complete accident reports after the initial notification, and can help to decide upon any club actions which may be needed following analysis of incidents and accidents.

For initial contact with your RSO, please go via the BGA office who will forward your enquiry, unless the RSO has already given you their contact details to enable you to approach them directly.
