

Supplying a Club Focus for S&G

Thank you for your interest in S&G's Club Focus. If you are considering writing one, what will be required is:

1. 300-500 words about the club, giving some information about its history but concentrating on current operations. Since your article is part of a series, anything that makes your club stand out from others is likely to help grab the readers' attention.
2. A selection of photographs of the site, its people and gliders, including at least one aerial view. Preferably, these will not have been previously published (please say if they have been). Digital photos are acceptable. Publication-quality images require the use of cameras with a minimum of 3-megapixels, and the camera should be set at its maximum resolution capability.
3. The information for the At A Glance panel, as follows:
 - Full membership cost:*
 - Launch type(s) & cost(s):*
 - Club fleet:*
 - Private gliders:*
 - Instructors:*
 - Types of lift:*
 - Operating days:*
 - Contact telephone number(s) and email address:*
 - website address*
 - site lat and long*

The At A Glance panel can also include any other information peculiar to your site (eg radio frequencies, unique procedures for visiting aircraft, days when the site is unusable due to other activity, catering/accommodation, or whatever).

Thank you again for your interest. If your club has not already featured in Club Focus and you would like it to, please contact editor@sailplaneandgliding.co.uk
