BGA ref no:

BGA Form 277 Complex Maintenance Application

This form is used for BGA inspectors at non approved maintenance sites (List 2) to apply for specific authorisation to carry out a complex maintenance task on aircraft under BGA maintenance control.

Applicable aircraft; Sailplanes, Self Sustaining Sailplanes, Powered Sailplanes and Motor gliders, non-Part21 powered aircraft.
For a definition of complex tasks and how to apply for approval see AMPs.

Note: all complex tasks will require completion approval prior to releasing aircraft. This application is not a repair scheme approval. This application is the approval of facilities for the task and for quality oversight in accordance with Part ML.

BGA Number:	Registration: G-	Make & Type:	
Serial/works number:	Description of work (title):
